After MIT's noisy electropunk-debut-EP „Deine Eltern“ and their dancefloor-stomper-single „Goodbook“ we now release their second EP „Was War Es“, which is the missing link between the two categories and adds a new melancholic mood, that makes these songs kind of ballads, brutal dance-ballads, but ballads.

The Remixes are, like always, incredible. The unbelievable Rory Aggwelt (Ex-Test Icicles, now Ratt At Agg) created a wild but cute distortionimpression and the allways satisfying duke of tastefull dancemusic Thies Mynther transformed the track into a spooky, dark Sadness, that makes you dance fort he one and only truth.

At the end Ascii.Disco destills the pure technospirit of this song to give you a short insight into eternity.
